# 3P INSPECTION

At Canawin Shades, our commitment to excellence extends beyond the finished product. We uphold rigorous quality control measures throughout every stage of production, ensuring that each blind, shade, and shutter meets our exacting standards.

**Pre-Production Inspection:** Before manufacturing begins, our expert team conducts a thorough pre-production inspection. This involves meticulously examining the materials and components to ensure they meet our stringent quality criteria. From assessing the fabric integrity to verifying the dimensions, every detail is scrutinized to guarantee optimal performance and durability.

**Production Line Check:** As the blinds, shades, and shutters progress through the production line, we conduct comprehensive checks at every stage. Our dedicated quality control team examines the integrity of each product, testing for proper function and adherence to specifications. From verifying the light index to assessing mechanical components, we leave no stone unturned in our quest for perfection.

**Post-Production Check:** Once the blinds, shades, and shutters are manufactured, they undergo a final inspection to confirm their quality and craftsmanship. Our skilled inspectors meticulously assess every aspect, from structural integrity to aesthetic appeal, ensuring that each product meets our uncompromising standards. Only after passing this rigorous evaluation are the blinds, shades, and shutters deemed ready for delivery to our valued customers.

At Canawin Shades, our commitment to quality is unwavering. From pre-production inspection to post-production check, we go above and beyond to deliver blinds, shades, and shutters that exceed expectations in both performance and aesthetics.
